

ALEXANDRE LEBLANC

Senior Program & Operations Manager | Fintech · SaaS · Remote-first

60860 Beauvais, France | +33 7 44 72 36 58 | deviloufr@gmail.com | [linkedin.com/in/devilalex/](https://www.linkedin.com/in/devilalex/)

PROFILE

Senior Project & Product Manager with 18 years of international experience (Fintech, Web3/DeFi, SaaS, AdTech, Mobile). Proven track record coordinating cross-functional teams across Product, Engineering, Design, Finance and Legal. Experienced in budget tracking, vendor coordination, tooling governance and operational reporting to senior leadership. Autonomous, structured and proactive. Trilingual: French, English, Japanese. Fully comfortable in remote-first environments.

PROFESSIONAL EXPERIENCE

Senior Project Manager

Datachain

May 2023 – June 2025 | Tokyo (Remote)

- Tracked operational budget across dev, QA and ops/SRE teams; monitored spend and flagged risks in weekly reports to management.
- Coordinated sourcing steps with Legal and Finance teams: scoping, approvals, documentation and Purchase Order follow-up.
- Maintained vendor and contract overview: tracked renewal dates, commercial terms and external commitments.
- Managed tooling landscape (Jira, Confluence, Notion, Slack): access governance, licence cost control and onboarding of new tools.
- Acted as operational partner to the CTO: structured key decisions, coordinated cross-functional follow-up across Product, Eng and Design.
- Product Owner / Scrum Master: defined 12 and 24-month roadmap, wrote 90+ user stories, 0 planning overrun across 8 sprints.

Program Manager — Ads Business

SmartNews

January 2021 – May 2023 | Tokyo (Remote)

- Managed 2 global product programmes for the Ads Business, with direct reporting to the VP Product.
- Rolled out PDLC, DACI/RAPID and OKR processes across 5 teams (18 people); average team velocity up 25% in 2 quarters.
- Built budget tracking and investment prioritisation frameworks for the Ads department.
- Organised 6 all-hands, 1 hackathon and 2 offsites; team eNPS went from 32 to 51 in 18 months.

Product Manager

Hakuhodo I-Studio

January 2017 – January 2020 | Tokyo

- Led Pechat product (connected IoT toy) from 0 to 120K units sold; owned vision, KPIs and 3-year roadmap.
- Managed a 100M JPY R&D budget and an offshore team of 5 in Vietnam (hiring, training, performance reviews).
- Coordinated vendor contracts and SLA tracking for offshore development partnerships.
- International expansion: launched on the US market, +15% revenue in 12 months.

Project Manager

Rakuten

January 2015 – March 2016 | Tokyo

- Coordinated development of Rakuten Mobile SDK integrated across all Rakuten apps (50M+ users).
- Led 2 local and offshore teams (12 people); 100% of deliverables on time across 5 major releases.
- Managed project budgets and risks; quarterly reporting to senior management.

Producer

Wargaming

January 2013 – January 2015 | Tokyo

- Supervised publication cycles for 3 AAA titles (World of Warships, World of Tanks, World of Warplanes) across Asia-Pacific.
- Coordinated head office and regional teams (marketing, PR, support) across 5 countries.
- Represented the company at major trade shows: Tokyo Game Show, PAX, Gamescom.

Business Dev / Product / Developer

Silicon Studio · Digicraft · Grévin et Cie

January 2007 – January 2013 | Japan / France

- Managed multicultural development teams (Square Enix, Ubisoft, GREE) up to 10 people.
- Created and led an international indie game licensing division; 15 titles licensed in 3 years.
- Developed internal intranet tools and software (.NET, SQL) still in production after 5 years.
